SCUOLA DI DOTTORATO IN FISICA
ASTROFISICA E FISICA APPLICATA

2012/2013 PHYSICS COLLOQUIA

The most recent results from the ATLAS experiment at the CERN Large Hadron Collider (LHC) are presented. They are based in most cases on the full data sample recorded in 2011 and 2012. Emphasis is given to the latest measurements of the Higgs boson properties and to the present understanding of this recently-discovered, very special particle.

06MAY2013

FABIOLA GIANOTTI
CERN, Ginevra, Svizzera

The Higgs Boson and other Recent Results from ATLAS

Gli incontri si terranno alle **ore 15:00**
nell'**aula A** del **DIPARTIMENTO DI FISICA**
via Celoria 16 | 20133 MILANO | Tel. +39 02 50317740
