The oral examination consists of an interview to evaluate the candidate's scientific background, ability and aptitude for scientific research. Every candidate will be invited to present on a whiteboard the submitted Research Project in no more than 12 minutes. If necessary, diagrams and/or images contained in the Research Project could be used by the candidate as a reference.

During the oral examination, the candidate will have to focus on the scientific field related to the research project and on his/her own role in the proposal. The presentation will be followed by a discussion with the Committee.

The candidate can choose to have the interview whether in Italian or in English. The knowledge of the English language will be tested if the candidate has chosen the Italian language for the oral examination.

The President of the Committee
Prof. Giuseppe Bertin
